

NETWORK OF BLACK FARM GROUPS AND ADVOCATES

September 27, 2010

Dear Senator:

As a national “Network of Black Farm Groups and Advocates” seeking justice for farmers, we have been joined by many other organizations in the country that are in support of a final passage of legislation to fund the Black farmer settlement. Below is the statement endorsed by the organizations (please see pages 2 and 3 for the organizational listing).

“We, the organizations listed below, join the Network of Black Farm Groups in demanding immediate action by the Senate in passage of legislation to fund the Black farmer settlement (known as Pigford v Vilsack).

The budget of \$1.25 billion called for in the legislation is needed immediately so that the settlement of the lawsuit can finally move forward. Black farmers in the case have waited for more than a decade for a resolution of their cases. This is far too long.

We understand there is wide support for the Pigford settlement in the Senate so we question the procedural roadblocks for passage of the funding legislation. We ask that you swiftly resolve these barriers.

The House of Representatives has passed the measure. The country now awaits Senate action.

Time is running out. We ask for an immediate and supportive vote by the Senate.”
